## About us

Robomo, Inc. is a property software solutions specialist founded in Cebu, Philippines. Our team consists of experts in the field of IT solutions, business operations, and customer success.

We pride ourselves on creating solutions that solve our clients' problems and providing excellent customer service. Our solutions assist commercial and residential properties in digitizing and optimizing business operations, ensuring increased profitability and tenant satisfaction.

## Products and Services

### **ManagedPMO**

The #1 all-in-one property management platform that combines property management domain expertise with the most comprehensive and secure SaaS technology. Powerful and scalable, it can be easily customised to create a fit for purpose solution that is perfect for your organization.

### **Custom Software Development**

No business problem is too complex. We ask all the right questions from the beginning of our collaboration to create a clear roadmap towards achieving your business goals. Our in-house development team utilizes software development best practices to ensure delivery of the highest quality.

### **System Integrations**

ManagedPMO can be integrated with other software applications and hardware systems. Our knowledge and expertise in custom integrations shortens the time needed to develop a solution that enables individual systems to operate in unity seamlessly.

ManagedPMO is a cloud-based and easy-to-use software platform, developed in collaboration with several leading property developers. Their input has made ManagedPMO an invaluable asset for property management operations of residential and commercial properties of all sizes. ManagedPMO helps property managers, directors, security and maintenance teams to streamline and digitize operations resulting in greater productivity, cost savings, and transparency.

## Benefits

### **Gain operational efficiencies and increase profitability**

ManagedPMO allows your business to maximize time spent on the stuff that truly matters. Your property management personnel are made more efficient by reducing the amount of time spent on duplicating records on paper, as well as using your own time more effectively with a centralized, robust dataset at your fingertips.

### **Harness the power of data**

ManagedPMO allows you to work on the business rather than in the business by having a readily available big-picture view of what's happening. With all your property data in one place, plus ManagedPMO's real time analytics dashboard, you can see which properties are doing well or require attention in a flash.

### **Raise the service standard at each of your properties.**

With ManagedPMO, your team can easily keep track, act on, and manage requests from your tenants. With all the up-to-date information accessible from a phone, tablet, or desktop, your team will be able to answer every question in seconds.

### **Low cost centralization**

ManagedPMO allows properties of all sizes to be managed centrally. No matter the size of the operations, knowing what is happening across all your properties allows you to plan and schedule your resources accordingly.

# Features
